ryanchyy@gmail.com | changyu.me | LinkedIn

Senior Product Designer with 4+ years across Japan, Taiwan, and Singapore, owning design end to end from research to launch. Shipped payment features for 65M+ users at PayPay and growth features at Carousell, working closely with product managers, engineers, and data analysts to move key metrics.

## WORK EXPERIENCE

### Senior Product Designer
Nov 2023 – Present

PayPay, Japan · Mobile payment app with 65M+ users

- Led the Credit Card Voucher launch that moved 30% of 13M+ affected users off external card payments.
- Led the top-up redesign that raised average top-up amount 7% and cut processing fees 13%, validated through A/B testing.
- Designed a 0-to-1 lending feature for top-ups, owning borrowing, repayment, and overdraft flows end to end.
- Redesigned bank linking and savings flows based on user research, growing total user savings 7%.
- Built a Design QA process later adopted as the team standard, cutting engineering rework 65%.

### Product Designer
Jul 2022 – Oct 2023

Carousell, Taiwan / Singapore

- Redesigned sign-up and onboarding through user interviews and workshops, shaping the growth plan for new users and raising sign-up completion by 22% and new user growth by 13%.
- Led notification center redesign through card sorting and concept tests, raising click-through rate 20% and order completion 11%.
- Designed internal marketing tools from stakeholder input, making the case to drop paid third-party software and cut costs by 17%.
- Rebuilt the design system across iOS, Android, and web, raising component coverage by 32% and making design handoff 11% faster.

### UX Designer Intern
Jun 2021 – Sep 2021

Garmin, Taiwan

- Led an exploratory project on the exercise gaming market, prototyping smartwatch interfaces to test concepts with users and delivering three potential directions for the product roadmap.

### UX Designer Intern
Feb 2021 – Jun 2021

BenQ, Taiwan

- Researched the US K-12 education market for interactive whiteboard software, leading user research workshops to find user pain points and turning findings into clear design improvements.
- Designed B2B products for schools, improving device management and the teaching experience.

## OTHER EXPERIENCE

### Mentor
AAPD · 2024 – Present

Mentored 15+ designers on careers and portfolios, with several landing design roles. Coaching in the 2026 bootcamp.

### Side Projects
Built with AI-assisted coding

- Illustration Inspector (Figma)
- Vocab Translator (Chrome)
