Ryan Chang

ryanchyy@gmail.com | changyu.me

Senior Product Designer with experience across Japan, Taiwan, and Singapore, owning the design process end to end, from discovery and research to delivery and post-launch iteration. Track record of turning ambiguous, 0-to-1 problems in consumer fintech into clear, simple products, partnering closely with product managers, engineers, and data analysts to ship changes that move key metrics.

WORK EXPERIENCE

Senior Product Designer
Nov 2023 – Present

PayPay, Japan · Mobile payment app with 65M+ users

- Led the design of Credit Card Voucher so 13M+ users could keep paying with their cards after PayPay phased out outside cards.
- Redesigned how users add money to PayPay across mobile, partner apps, and web, using A/B tests to raise the completion rate by 26%.
- Designed a small loan feature from scratch that lets users borrow money to add to their balance, covering repayment and overdraft.
- Redesigned how users link their bank and save money in PayPay, turning user research into changes that grew savings by 7%.
- Set up a Design QA process to check built screens against the design, cutting engineering rework caused by design gaps by 65%.

Product Designer
Jul 2022 – Oct 2023

Carousell, Taiwan / Singapore

- Redesigned sign-up and onboarding through user interviews and workshops, shaping the growth plan for new users and raising sign-up completion by 22% and new user growth by 13%.
- Redesigned notifications with card sorting and prototype tests, raising click-through rate by 20% and order completion by 11%.
- Designed internal marketing tools from stakeholder input, making the case to drop paid third-party software and cut costs by 17%.
- Rebuilt the design system across iOS, Android, and web, reaching 80% use in new screens and cutting duplicate components by 45%.

UX Designer Intern
Jun 2021 – Sep 2021

Garmin, Taiwan

- Led an exploratory project on the exercise gaming market, prototyping smartwatch interfaces to test concepts with users and delivering three potential directions for the product roadmap.

UX Designer Intern
Feb 2021 – Jun 2021

BenQ, Taiwan

- Researched the US K-12 education market for interactive whiteboard software, leading user research workshops to find user pain points and turning findings into clear design improvements.
- Designed B2B products for schools, improving device management and the teaching experience.

OTHER EXPERIENCE

Mentor
AAPD · 2024 – Present

Mentored 15+ designers on careers and portfolios, with several landing design roles. Coaching in the 2026 bootcamp.

Side Projects
Built with AI-assisted coding

- Illustration Inspector (Figma)
- Vocab Translator (Chrome)
- Coach Match (quiz tool)
- changyu.me (portfolio site)

EDUCATION

M.A. Communication
National Chengchi University
2019 – 2021

Coursework: Digital Design, Human-Computer Interaction

SKILLS & TOOLS

Core Skills
UX/UI Design · Interaction Design · Design Systems · Design Ops · Information Architecture · Data-Driven Design · Visual Design · Typography

Methods
User Research · Usability Testing · A/B Testing · Rapid Prototyping · Systems Thinking

Tools
Figma · Adobe CC · Cursor
